

April Reflection 2017

April has been and gone and what a month it has been. We have had the luxury of enjoying some lovely warm days which mean it has been pleasant playing outside. While playing outside the children have had fun playing with the dinosaurs and African animals. Regardless of any other animals we provide the most popular ones are dinosaurs and African animals so they are always somewhere. We purchased some new hurdles and the children had fun testing them out, this will be a great experience for the children to use their gross motor skills. The Duplo which was donated continues to be one of the most popular play spaces in the kookaburra room. The children are constructing an array of interesting and imaginative structures. Friendships are blossoming with many of the children pairing up or forming small groups as they play. These groups are not always the same with the children mixing well.
