

August 2017 Reflection

Over the last couple of weeks, the children have shown a lot of interest in anything to do with music and movement and books. From a variety of music playing on the CD player, singing, our CD books and having stories read to them. All the children enjoy coming together and joining in, this is also a great way to bring the group together so they can learn to interact with each other, be creative and develop an appreciation for music and movement. Music and movement is a great for the children's language development as well as learning about rhythm, beat and tempo.

In the possum room, the children have enjoyed dressing up in a variety of outfits and at the same time it is helping them to dress and undress. As well as having fun, creating a character and starting to understand what is real and what is made up.

Messy play is always a lot of fun and the children really enjoyed our goop as they could explore by manipulating using their senses and using terminology such as smooth, soft, cold and sticky.
