

January Reflection 2017

Welcome to the Kookaburra Room! We are very excited about this year. The children will be exploring a whole range of concepts and learning a lot. They are ready and eager to embrace this next step in their educational journey. It has been a busy start to the New Year. Already we have had the rabbits and guinea pigs come to visit. The children enjoyed getting friendly with these cute and cuddly furry friends. We have celebrated Australia Day with tattoos, identifying Australian animals and making vegemite sandwiches. We have recently introduced our own pet.....gold fish.

The fish tank is a great attraction with the children curious about the little fish swimming around. We have discussed the care of the fish and hopefully they will live a long life with us. With the weather being so nice we have spent a lot of time outside and with new sand, soil and bark the yard is looking very inviting. The children are encouraged to apply their own sunscreen with educators close by to guide them and ensure they don't miss any bits.
