

# Purple Group Reflection. Term 1. Week 7

Outcome 4: Children are confident and involved learners.

NQS 1: Educational program and practice

One of the highlights this week was starting our gardening initiative – tapping into:- environmental awareness, sustainability, growth, respect and team work. Together we decided that our garden be named THE GREEN THUMB! We discussed the importance of looking after it. So far planting:- beetroot, spring onions, turnip and silverbeet!

Crater art – forming craters on Venus

Lava from Maat Mon sent from Sheshily

This week Sheshily has been on Venus! She managed to get stuck down in Crater Mead (the largest crater of 1000 on Venus)! The children had to crack a code to release her which meant learning how to count from 1-10 in Japanese including blast off in Japanese! In the interim of being saved Maat Mon, largest volcano on Venus, erupted and spilt over into Crater Mead leaving Sheshily distressed and in need of diar assistance! The children learnt through art and drama that Venus; is the 2<sup>nd</sup> planet from the sun, is the hottest planet in the solar system, is the 2<sup>nd</sup> visible natural object from Earth and is the Roman Goddess of love and beauty!
